Examination Preparation

Ultrasound: All exams 30 - 60 min.

Abdomen: (including gallbladder, liver, aorta, spleen, pancreas, kidneys)

- Nothing to eat or drink from 10 pm the night before until completion of exam.

Pelvic & Renal

- Do not empty bladder for 2 hrs prior to exam. Start drinking 3 to 4 cups (250ml) of fluid (750ml to 1000ml total) (NO milk or carbonated drinks) 2 hours prior to exam.
- **Under 10 years old**, try not to empty bladder 1 hr prior to exam. Do not void bladder until after the exam

Combined Abdomen & Pelvic Scan

- Nothing to eat from 10 pm the night before until completion of exam.
- Follow instructions of pelvic & renal scan

Obstetric Scan

- A full bladder is essential
- Start drinking 2 cups (250ml) of fluid (500ml total) (NO milk or carbonated drinks) 2 hours prior to exam.
- Finish drinking above fluids 1.5 hours prior to exam
- Do not void until after scan

All other scans require no preparation
